

LAW-05 / LAW-10

Water Leak Detection Cable and EOL Device

Features

- ▶ Available in 5 and 10 metre lengths (other lengths on request)
- ▶ Simple connection and termination
- ▶ Consistent sensitivity
- ▶ Aesthetically attractive.

Description

LEAKalarm offers both linear and point water leak detection solutions.

Linear leak detection is achieved through the installation of this very responsive sensing cable, designed to be fixed under false floors, in ceiling voids and other enclosed spaces. Available in lengths of 5m and 10m, the

cables can be connected by the locking plug and socket system to cover large areas.

An EOL device is added to the end of each cable run and cables are connected to LEAKalarm modules that are in turn connected to the LEAKalarm panel loops.

Specification - LAW-05 / LAW-10

Ordering Codes	LAW-05 - LEAKalarm Wire - 5m / LAW-10 - LEAKalarm Wire - 10m
Colour	Blue
Lengths (m)	5 and 10 with custom lengths on request
Terminations	Easy to fit locking plug and socket
Weights (g)	160 (LAW-05) 320 (LAW-10)

Specification - LA-WLDM-EOL

Ordering Codes	LA-WLDM-EOL
Colour	Blue
Terminations	Easy to fit locking plug and socket
Weights (g)	20
