# The Next Generation of Battery Technology

## Smart Safe Charge System

Built-in battery status and health check safety system. The SoH (State of Health) system monitors multiple parameters ensuring battery safety.

## Maximum Energy Deployment

Delivering power from cell to machine with minimum power loss via high-quality welded nickel power rails.

## Integrated Heatsink Casing

Quickly and efficiently cools the pack in use, optimising delivery of power.

## Integrated Cooling Design

Keeping cool allows maximum power delivery, the clever NX300 pack design eliminates air pockets acting as an insulation transmitting heat directly out of the pack.

## Integrated Handle

Quickly and easily hot-swap batteries across the Pro Cordless Network.
