

NuTrack

Intelligent Fleet Management System

Connected
Protected
Productive

Intelligent fleet management telemetry, lowering costs and increasing productivity.

Asset Management

Understand how, when and where your cleaning fleet is operating. Each asset automatically uploads status, location and usage reports to the portal.

Maximising Return

Deploy machines effectively based on environment, use and hours worked. Insights allow fleet managers to deploy newer assets to the most demanding environments and critical locations.

Intelligent Insights

Cleaning fleet data ensures informed decision making, with assured security and privacy using global cloud hosting. Your data is secure and backed up using the latest hosting technology.

Maximise Operating Reliability

Manage and track servicing requirements to keep your cleaning fleet running smoothly, extending machine life and eliminating costly downtime.

Security & Prevention

Prevent unauthorised use beyond specified working environment using WiFi technology. If a machine is moved beyond the Geo-Fence, an alert will be sent.
