Unlike wooden bathroom products, Halite is 100% water resistant.

When a wood based material like MDF is used, the surface is painted but over time the paint has a tendency to crack. Without its protective covering the MDF core quickly absorbs moisture causing swelling and softening. Halite is much lighter in weight than MDF.

Chemicals

1 litre or 500ml

WYN-BC-1000 | WYN-BC-500

Inhibitor

Available in 1litre or 500ml

Inhibitor is a very effective triple blend of Corrosion Inhibitors. Specific for steels, aluminium, copper and their alloys & most materials found in heating systems. Manufactured under a quality management system registered to ISO 9001.

WYN-SL-1000 | WYN-SL-500

Sludge & Flux Remover

Available in 1litre or 500ml

Sludge & Flux Remover is a flocculent blend that is typically used to shift deposits of silt, mud and sand from open drains. Sludge & Flux Remover gives the silt particles buoyancy in water and by putting a small electrical charge on each particle, causes them to repel each other. Material treated with Sludge & Flux Remover is unlikely to form a solid mass again. This enables the silt and sludge content of heating systems to be removed quickly and effectively.

WYN-PC-1000 | WYN-PC-500

Powerflush Cleaner

Available in 1litre or 500ml

Powerflush Cleaner is formulated to loosen, mobilise and dissolve corrosion deposits, sludge formations and iron oxides typically found within heating systems with circulation and heat transfer problems.

WYN-NS-1000 | WYN-NS-500

Silencer

Available in 1litre or 500ml

Cleans and neutralises sludge, flux, scale, silt, light rust, debris, oils and grease from new and old systems, as well as flocculating magnetite sludges and particulate residues, to facilitate their easy removal. Use at 1% dilution (1/2 litre to 100 litres of water).

WYN-INH-1000 | WYN-INH-500

Inhibitor

Available in 1litre or 500ml

Inhibitor protects and helps maintain most heating systems. Is designed to inhibit corrosion scale, hydrogen gassing, microbiological growth and boiler noise. Not designed for Primatic cylinder installations.

WYN-CL-1000 | WYN-CL-500

Cleanser

Available in 1litre or 500ml

Cleans and neutralises sludge, flux, scale, silt, light rust, debris, oils and grease from new and old systems, as well as, flocculating magnetite sludges and particulate residues, to facilitate their easy removal. Use at 1% dilution (1/2 litre to 100 litres of water).
